7 Embryo Lots • 2 Proven Donors  
Pick of the 2023 Heifer Calf Crop!

# BICHLER

## SIMMENTALS

Welcome to our 19th annual production sale. I'm not quite sure where the year has gone, but somehow we seem to have rounded the sun in record speed. I'm hoping for a mild winter and a nice calving season for all of my customers who have braved the past few winters. I'm pleased that we are finally seeing prices where they need to be for the cattle we have to market. It's a great year to cull old breeding stock and upgrade to a new bull or bred heifer.

We've done our best to sort a high quality set of cattle this year. This set of bulls has never been offered for sale. The quality we strive for and that you have come to expect is represented in this offering. We culled hard for structural and disposition issues to ensure you get our absolute best genetics. We are happy with the cattle presented in this catalog, and we find it rewarding that some of our top bulls and heifers are sired by bulls we have raised in the past. We also have several new pedigrees that are unrelated to sires we have used in the past so you will find many options for the replacements you've kept in prior years.

The heifers in this sale spent the summer on pasture with no supplement. We are pleased with how they have come along, and they will be in excellent shape going into winter. They represent the kind of females we would be happy to keep in our own herd, and reports have been favorable that they turn into productive cows. The heifers were ultrasounded for calving dates in September and then were palpated closer to the sale to confirm pregnancies.

The bulls spent the summer at home on our calving pasture, which we typically can't do, but thanks to abundant rainfall, they had plenty of grass. We gave them cake daily. Abram was very disgruntled when this chore came to an end and still asks to cake the bulls often. We enjoy being with the bulls every day and the dispositions reflect all the time we've spent with them. The bulls will all complete a breeding soundness exam prior to the sale, and we are offering the same policy regarding breeding guarantees as last year. Make sure to look at the sale terms and conditions page to familiarize yourself with these terms. We have received excellent feedback that the bulls we sell develop well and can service more cows because of the way they are developed and their extra age at turnout.

Our sale is a video-only sale; no cattle will be brought through a ring. This method has been a great way to have the sale at the ranch without building a new facility. The advantage is no cattle will be moving during the sale, so you are free to view them as long as you like. They will be right out the door on sale day if you need a second look.

Lastly, we would like to say thank you. Thank you to all of our loyal customers and friends who support us. We could not be in this business without you, and we appreciate your interest and belief in our program. We look forward to visiting with you. See you at the ranch Nov. 20!

Doug and Maria Bichler

**Preferred route:** Travel south of Linton, N.D., on Hwy 83 and turn west at 82nd Street. Travel for five miles and turn south at 2nd Ave. Travel for one mile and turn west at the Bichler Simmentals sign. Travel for three-quarter of a mile; the sale will be held in the red and white barn.

**Secondary route:** Travel west of Linton, N.D., on Hwy 13 and turn south at 3rd Ave. Travel for one mile and turn west at 80th Street. Travel for one mile and turn south at 2nd Ave. Travel for three miles and turn west at the Bichler Simmentals sign. Travel for three-quarter of a mile; the sale will be held in the red and white barn.

**SALE DAY PHONES**

- Doug Bichler**.....701 226-4068
- Maria Bichler** ..... 701 340-9749
- Paul Bichler** .....701 226-5861

**Sale location:** Bichler Ranch, see directions above.

**Sale terms:** All cattle sell under the Suggested Sale Terms and Conditions of the American Simmental Association. Available upon request.

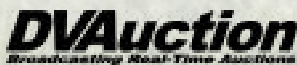

**Phone bids:** Phone bid services will be available if an interested party cannot attend the sale. Please leave your bid with any of the sale staff listed in the catalog and we will do our best to accommodate you. We will try and fulfill your request to the best of our ability and no "running" of the bid will be allowed.

**Accommodations:** Motel rooms are available at Don's Motel, 701 254-5457, or the Cobblestone Inn and Suites, 701 254-5734. Both motels are located just off of Hwy 83 in Linton.

**Announcements:** Announcements made sale day and from the auction block take precedence over printed materials in the catalog or other printed material associated with the sale. Anyone attending the sale does so at their own risk. Any of the sale staff will not be responsible for any personal injury for attending this sale. We are not responsible for any accidents, damaged, or stolen items on sale day.

We reserve the right to collect up to 100 units of semen on any of the bulls, for in-herd use. The semen will be collected at the seller's expense and the buyer's convenience. Please contact us if you have any questions.

**Sale format:** The sale will be broadcast on DVAuction. The cattle will not go through the barn. Videos of all lots will be played as each one sells. The cattle will be penned near the barn for evaluation on sale day.

**SALE PERSONNEL**

- Tracy Harl**, Auctioneer, Wellington, CO .....402 469-3852
- Scott Ressler**, Ringman, ND Stockmen's Association.....701 391-7310
- Tony Heins**, Ringman, Cattle Business Weekly.....701 400-4435
- Russ Danielson**, American Simmental Association ..... 701 261-2742

**Disposition:** We have given each lot a disposition score, based on our interactions with them. A score of 1 or 2 means we've had an easy time handling and managing these animals. A score of 3 or higher means those animals need to be handled with more respect and have a larger flight zone. Please note that as animals age and are handled in different environments, their disposition can change.

**Breeding guarantee:** All bulls in this sale have passed a breeding soundness exam by Dr. Lyle Kenner of Northern Veterinary Service in Linton. We will cover injury or infertility of your new bulls that would prevent them from breeding through the first 60 days of the breeding season. To be eligible, bulls must bring \$3,000 or more. A salvage value will be deducted from the purchase price and either a replacement if available or sale credit at the next sale will be provided. Management issues, such as poor nutrition or frozen scrotums, will not be eligible. We ask that customers make us aware of issues as soon as they occur, and we reserve the right to request a veterinarian assessment.

**Health program:** Bulls and heifers were calfhood vaccinated with Bovisheild Gold 5, Oneshot Ultra, 7-way Somnus, and injected with Dectomax. At weaning, calves were given Bovisheild Gold 5, 7-way Somnus and One Shot, boosters were given of the Bovisheild Gold 5, and 7-way Somnus and they were poured with Clean-Up II. The bulls received Fusogard at turn-out.

**Hauling:** We would appreciate sale cattle be taken home on sale day. If you cannot take them home on sale day, please make arrangements prior to the sale to coordinate hauling.

**Insurance:** Insuring your bull or heifer is an affordable way to cover yourself in case of fatality. In many cases the full purchase price can be recovered with a simple policy. Insurance will be available on sale day.

**Index information:** Please note that EPDs may change from the time the sale catalog is printed to the time the registration paper is transferred.

Big-bodied red baldy that stems from the same cow family as Dignified.

HHS Incognito 847G - Sire of Lots 8-11

In 2020, we changed our program out of necessity. Between harsh calving seasons, limited labor, cow/calf health, and our mental and physical well-being, we needed to do something different. Our solution has been to calve in May and June and offer bulls and bred heifers for sale each November. We have witnessed a tremendous difference in the health of our cowherd and calf crop due to calving in warmer temperatures and on grass.

We realize this is unconventional when compared to most of the operations in the region. However, we have noticed there are benefits to this management system. We no longer creep feed our calves. We can grow them out with less energy. As a result, the foot quality on the entire offering is exceptional. That is due in part to genetics but also the way they are developed.

We are able to spend more time with the bulls. They spend the summer on pasture at home, and so we go through them every day to offer cake and observe them. We can cull heavier based upon disposition, structure and performance. We have the time and capability to ensure what we are selling is a quality product.

A testament to the health of our bred heifers is the fact we are able to successfully breed them for March 2024 calves. Realize the meaning of this feat when these heifers were born in May and June of 2022.

We've been questioned as to why we didn't stick to a February sale and why we deliver immediately following the sale. There is a higher rate of injury when these older bulls are confined in the winter. It is safer for them to go to their new homes to pens that are less populated to reduce the risk of injury for our customers' bulls. This also gives bulls time to acclimate before breeding season. In addition, we can focus on our next calf crop.

Because of our transition, all bulls offered for sale have passed a breeding soundness exam, ensuring they are capable of working when the time comes. Buyers can buy in confidence, knowing they are getting a sound breeding piece to add to their operation.

Now that we have three years behind us in this system, we know it works extremely well and buyers are pleased with the quality it has presented. If you have any questions about our system, please give us a call or stop by the ranch.

We love these dark red Pursuit sons out of the great X200 cow. We were excited to get the opportunity to flush X200 to Pursuit. A full sister was chosen as the pick of our heifer calves in 2022, and we utilized Lot 22 in our ET program this past summer. The potential of phenotype, maternal ability and unique pedigree makes these bulls interesting pieces to add to your herd.

Maternal brother of our Dignified bull. The Y101 cow was such a great producer for us, and while we have several daughters and granddaughters, we wish we could go back and flush this cow. This Pursuit son is made so well. He's long-bodied, long-fronted and should turn into a tremendous herd bull.

The most moderate-framed bull in the sale that we felt we needed to offer as a calving ease option of the Incognito bull.

Although these Incognito sons are not full brothers, their phenotype is extremely similar. They offer a bit more frame, length and body, and both are backed by incredible cow families. If you need a pair of well-balanced black bulls to run together, these two would work great.

What an opportunity to get in on a young, proven, prolific embryo producer. E352 has cemented her place in the breed with her very first son, Manifesto. His progeny are exceeding our expectations, especially his beautiful uddered, easy keeping daughters that closely resemble their granddam. E352 has worked with literally everything we've used on her, and she has left us with so many embryos that we are comfortable carrying on her legacy with all the females she has left us. She sells in her entirety, open and ready to flush.

Rockin H Captivate J75 • Sire of Lots 110A and 111A

TJ Ms 38W • Genetic Dam of Lot 111A

Yankee has become a household name in the Simmental breed. She has produced sale toppers with every mating, and her oldest daughters are being flushed here with excellent results. We can't emphasize enough her ability to stamp her striking phenotype on all of her progeny. She has been one of the most exciting red cows we've had the opportunity to work with, so it is hard to let her go, but we need to move on with her daughters. The opportunity is yours. She sells in her entirety, open and ready to flush.

## 113 PICK OF OUR 2023 HEIFER CALVES

We had a fair amount of interest in last year's heifer calf pick, so we decided to offer it again. Picks are always a nice option when you're shopping for a new female because you get exactly what you want and need. The heifer calves in this group are unique with fresh pedigrees out of our very best cows. Several are direct daughters of our donors and virtually all can be traced back to a present or former donor we've worked with. The pick last year was an exceptional Pursuit x X200 daughter going to long-time customer, Troy LaFave. We will have the heifer calves registered by sale time and would be happy to provide a list to help make your pick. We will allow you to wait until spring to make a final selection. We reserve the right to a flush or a split of two flushes, resulting in at least 6 transferable embryos, at the buyer's convenience.
